

Automatic screen printing just got faster and more efficient. Now powered by Hotronix®, the Stampinator® 480 integrates directly into the printhead, replacing the flash unit with high-efficiency heat press technology. This in-line attachment pre-presses garments, stamps underbases, cures ink, smooths fibers, and applies heat transfers—all in a single automated step—reducing downtime and increasing output.

Transform Your Screen Print Machine

Engineered for speed and precision, the Hotronix® Stampinator® 480 enables businesses to produce up to 480 shirts per hour while ensuring consistent, high-quality results. Compatible with all automatic screen printing presses, it offers a seamless upgrade for those seeking to boost efficiency without expanding their space. Whether you're curing ink, stamping the underbase, or applying specialty materials like HTV, DTF, foil, or rhinestones, the Stampinator® 480 is designed to deliver accuracy and reliability for all your printing needs.

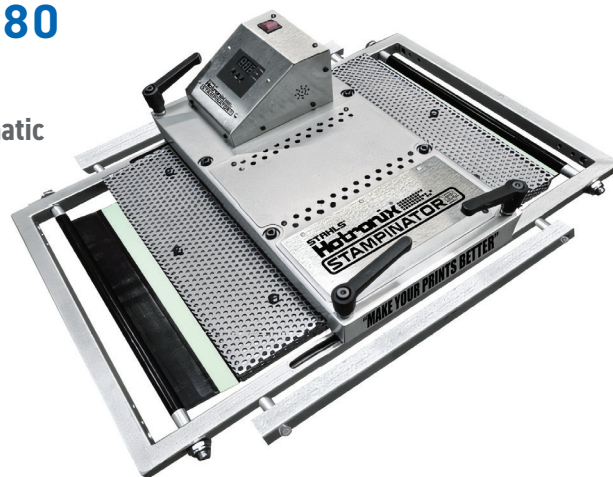

STAMPINATOR® 480

UNIVERSAL FIT

Compatible with most major automatic screen print presses, including:

- ROQ
- M&R
- Workhorse
- TAS
- Anatol
- MHM

PERFORMANCE

Powered by USA-made, award-winning Hotronix® digital technology

Digital temperature control ensures accurate, consistent heat

Installs quickly on most automatic presses (front, rear, or side clamps)

Flat, warp-resistant heating surface built for high-volume use

SHIPPING

21" X 31.13" X 8" (53 x 79 x 20 cm)
70 lbs. (32 kg.)

FEATURES

In-line heat press replaces flash unit for faster, more efficient production

Compatible with plastisol (standard and low cure) and water-based inks

Supports specialty materials: HTV, DTF, foil, rhinestones, and more

Stamps fibers and flash cures in one step

Compression smooths fibers for a cleaner, higher-quality print

Green Heat Conductive 1/8" silicone pads conform to seams, v-necks, and uneven surfaces

One or more patent and/or patents pending
